

分立产品范围

OBJECTIVE

目的

VTI Technologies offers a family of single and dual axis stand alone inclinometers with various measuring ranges and two alternative signal interfaces. The inclinometers offer the normal analog output, and also they also incorporate an RS-485 interface for signal output and for controlling the in-built self test functions. The Tables below list the available product versions of the SCA111T, SCA121T, SCA115T and SCA125T Series inclinometer modules.

VTI科技提供一类单双轴分立倾角仪，此类倾角仪具有不同测量范围和两个可选信号接口。倾角仪除了提供通常的模拟输出外，也能结合RS-485接口提供信号输出并控制内建的自检功能。以下表格列出了

SCA111T,SCA121T,SCA115T,SCA125T系列倾角仪的产品型号：

1-axis

Product	Measuring axis	Range	Output	Supply
SCA111T-D02	X	±30°	voltage	7...20 V
SCA115T-D03	X	±30°	RS-485	7...20 V

2-axis

Product	Measuring axis	Range	Output	Supply
SCA121T-D07	X-Y	±30°	voltage	7...20 V
SCA121T-D03	X-Y	±90°	voltage	7...20 V
SCA125T-D08	X-Y	±30°	RS-485	7...20 V
SCA125T-D06	X-Y	±90°	RS-485	7...20 V

ADDITIONAL INFORMATION

其它信息

总重量：大约60克(不包括连接插头)

保护级别：IP66(不包括连接插头)

外罩：金属外罩(黄色铬锌铸件)

托架(可选)：黄色不锈钢

电缆长度：30cm

Total weight: approx. 60 grams (excluding connector)

Protection class: IP66 (excluding connector)

Housing: metal housing (yellow chromated zinc casting)

Bracket (optional): yellow passivated steel

Cable length: 30 cm
