

VG941-3AM

miniature precision sensor with improved bias and scale factor stability over operating temperature range
Powering +5Vdc

Weight	80 gram
Size	35x35x60
Power	1 Watt
Bias stability	3 - 10 deg/hr
Scale factor stability	0.03 %
Random walk	0.0015 deg/s / sqrt Hz
Input range	500 deg/s
Temperature	-30 ... +70
Shock , acceleration	90 g
